

CAREER OBJECTIVE

Final-year Computer Science student with hands-on experience in Full Stack Web Development and AI-integrated applications. Skilled in React.js, Python, FastAPI, Flask, and MongoDB, with practical expertise in computer vision, machine learning, and real-time web applications. Passionate about building AI-powered, scalable products and seeking a Full Stack / AI Developer role to apply technical skills in a fast-paced, real-world environment.

TECHNICAL SKILLS

Python | JavaScript | React.js | HTML5 | CSS3
FastAPI | REST APIs | MongoDB | MySQL | Expo React Native
OpenCV | AWS | Git | GitHub | VS Code

INTERNSHIPS

PYTHON WEB APP DEVELOPMENT INTERN - DEV TECHNOLOGY SOLUTIONS

Jul 2025 – Aug 2025

- Engineered scalable web application modules using Python and Flask, designing RESTful APIs that streamlined backend data flow and reduced response latency.
- Translated business requirements into functional features by integrating frontend UI with backend services, enhancing overall application usability and performance.
- Conducted rigorous testing and debugging cycles, identifying and resolving critical bugs that improved application stability by ensuring error-free deployment.
- Collaborated in an agile team environment, participating in code reviews and daily stand-ups to deliver project milestones on schedule.

FULL STACK DEVELOPMENT INTERN - NOVITECH R&D PVT LTD

Sep 2024 – Nov 2024

- Built end-to-end full stack features using React.js and Node.js/Flask, delivering responsive and dynamic user interfaces for real-world use cases.
- Architected and optimized database schemas with MongoDB/MySQL, improving data retrieval efficiency and application performance.
- Implemented secure authentication and role-based access workflows, strengthening application security and user data protection.
- Actively contributed to sprint planning and code reviews, consistently meeting deadlines in a fast-paced development cycle.

PROJECTS

ENTERPRISE RESOURCE & INVENTORY MANAGEMENT SYSTEM

Jan 2026 – Apr 2026

- Architected a full stack ERP-style platform using React.js and Python (FastAPI) to manage inventory, orders, billing, and vendor operations for multi-branch businesses.
- Designed RESTful APIs with JWT-based authentication and role-based access control (Admin, Manager, Staff) for secure multi-user operations.
- Built real-time analytics dashboard using Python (Pandas) to generate sales trends, stock alerts, and demand forecasts.
- Integrated MongoDB for scalable data storage, optimizing query performance for large transactional datasets.

AI-POWERED CUSTOMER SUPPORT & TICKETING PLATFORM

May 2026 – Jul 2026

- Developed a full stack customer support platform using React.js and Flask, enabling automated ticket routing and status tracking.
- Built an AI chatbot module using Python (NLP libraries) to auto-respond to common queries, reducing manual ticket resolution time.
- Implemented real-time notification system and admin analytics dashboard for tracking response SLAs and customer satisfaction.
- Designed scalable backend architecture with MySQL/MongoDB, supporting concurrent multi-user ticket handling.

CERTIFICATIONS

- freeCodeCamp – JavaScript Certification
- AWS Cloud Practitioner Essentials – AWS Skill Builder
- Kaggle Learn – Intro to Machine Learning
- Microsoft AI Innovation Day — TechNexus Community, Microsoft Chennai (Oct 2025)
- National Level Workshop – Emerging Cybersecurity Trends — KSR College (Sep 2024)

EDUCATION

BACHELOR OF ENGINEERING – COMPUTER SCIENCE & ENGINEERING

GNANAMANI COLLEGE OF TECHNOLOGY, NAMAKKAL

CGPA: 7.5

2023 – 2027

DECLARATION

I hereby declare that the information provided above is genuine to the best of my knowledge and belief.
